Disclaimer: Illinois Compounding Pharmacy, Inc. is a 503A licensed compounding pharmacy that customizes medications to meet unique patient and prescriber needs. The FDA allows compounding when commercial drugs are in shortage or the patient is required to take a compounded drug because they will benefit from it. Compounding a product because it is cheaper than a commercial product is not allowed. Our pharmacy does not compound copies of commercially available products unless allowed by the FDA (ie FDA shortage list, allergies, palatability, etc.
