Illinois Compounding Pharmacy offers competitive pricing on 60-day and 90-day hormone therapy supplies. We dispense hormone creams using the precise and easy-to-use Topi-Click® dispensers for consistent dosing and convenience. To minimize mess, reduce application time, and lower the risk of transferring medication to others, we recommend using the smallest effective amount of cream. This can be achieved by increasing the concentration of the formulation while decreasing the amount applied per dose.

## PCOS WITH EXCESSIVE HAIR (HIRSUTISM) & ACNE

\*Dispensed in Topi-Click dispenser (1 click = 0.25ml) \*

Disclaimer: Illinois Compounding Pharmacy, Inc. is a 503A licensed compounding pharmacy that customizes medications to meet unique patient and prescriber needs. The FDA allows compounding when commercial drugs are in shortage or the patient is required to take a compounded drug because they will benefit from it. Compounding a product because it is cheaper than a commercial product is not allowed. Our pharmacy does not compound copies of commercially available products unless allowed by the FDA (ie FDA shortage list, allergies, palatability, etc.
